Complexity Rating: 2%

Suggested Waste

Roof Waste % without bundling cap & starter: 9.30% (69.99)Sq

Total Waste % for this roof: 19.00% (76.20)Sq

Note:The above table does not include the extra supplies required for ridge, hip, and starting lengths. The suggested waste factor is supplied as a guide only; real waste percentages may vary depending on a number of uncontrollable factors. Individual installation methods, crew experiences, complexities in the asphalt shingle material, and probable reclamation from the area are a few examples of these waste factor variables, but they are not the only ones. The suggested waste factor from Aerial Estimation may not apply to all results. The proposed waste is not intended to take the place of experience or judgement with regard to any specific replacement or repair job.
